Reasons for allowance

1. The amendment dated 12/19/2007 has been entered.
2. Claims 1 and 12 have been cancelled.
3. Independent Claim 2 recites "a load balancer having a load factor table coupled with said plurality of image data recorders for selecting one of said plurality of said image data recorders on the basis of load factor table to output said image data wherein said load factor relates to a number of command applied from said terminal unit". Independent Claim 12 recites "in case of said command for a video replay, detecting the load factor of each of said plurality of image data recorders, and transferring said command for a video replay to one of said plurality of image data recorders based on the load factor of said plurality of image data recorders, wherein said load factor relates to a number of said command". None of the prior arts on record Elberbaum (US 7171106) and Ebata (US 6292098) disclose the above limitations and therefore Claims 1 and 12 are allowable. Dependent Claims 3-11 and 14 depend directly or indirectly on the Independent Claims 2 and 12 therefore they are allowable.
